

Programme Stockholm 12-13 October

Transnational Conference and Partner Search Forum in Stockholm 2011

Transnationality is an important ingredient for inspiration of social innovations in the European Social Fund. Transnationality is also the foundation for a deeper understanding of the opportunities provided by increased mobility in Europe.

We therefore invite you to participate in a major event with transnationality as one focus area in our meeting-place the WorkingLife in October.

Invited are: projects seeking transnational cooperation, representatives from Managing Authorities of the member states and their partners, the European Social Funds Thematic Learning Networks and Swedish Thematic Groups.

Registration and information:
info@processtodstockholm.se
